Information Sheet for 5 Size Mixed Crate

Dear Customer,

Please find the following information for our Indian Sandstone 5 size mixed crate. As shown is our tried and tested inter-locking repeatable pattern, designed to save time during planning and installation. Each crate contains 6 interlocking pre planned areas of paving, totaling to 17.5 square meters (including joints).

We can supply any size of order, whether it be for an area of less than one full crate, or for as many crates that you may require.

Should you need further assistance please call 01932 569277
